Education

UNIVERSITY OF HOUSTON Houston, TX
Bachelor of Arts, English Dec 2025
Relevant Coursework: Technical Communications, Professional Writing, Advanced Composition

Experience

ZONE 5 TECHNOLOGIES San Luis Obispo, CA
Technical Writer/ Manufacturing Operations Jun 2026 – Present

- Promoted to Technical Writer II within 4 months based on performance
- Led the move of White Spike work instructions to an updated product configuration, keeping revision control and configuration alignment intact across every document.
- Led First Article Inspection (FAI) documentation for the programs avionics side and wrote 11 new work instructions, which supported on-time first article completion.
- Created customer-facing build documentation template that shows how 2 of our products are built.
- Developed and maintained 28 AS9100-complaint work instructions and build documents by turning CAD models and engineering drawings into clear, step-by-step procedures for the assemblers.
- Coordinated daily with manufacturing engineers, mechanical engineers, assemblers, technicians, and the manufacturing execution team to keep instructions in line with current design.
- Expanded support across programs, bringing Rusty Dagger to work instruction standards to the White Spike program across 35 documents.

GAINWELL TECHNOLOGIES Irving, TX
Technical Writer Feb 2025 – Feb 2026

- Produced clear, step-by-step technical documentation for regulated healthcare workflows used as permanent operational references
- Authored and edited SOPs and technical documentation contributing to an 80-page Project Management Plan and Software Design Document, standardizing repeatable EDI processes
- Consolidated input from 20+ subject matter experts while adhering to HIPAA and ASC X12 EDI 5010 standards, ensuring accuracy and compliance in high-risk documentation
- Developed six user-facing companion guides for the Washington, D.C. EDI team, reducing vendor onboarding questions by approximately 30%
- Designed and presented a Power BI vendor-tracking dashboard to 15+ stakeholders, improving visibility into workflow status and documentation adoption

GULF COAST JOURNAL Houston, TX
Editorial Operations Coordinator Sep 2023 – Dec 2025

- Edited and refined fiction, poetry, essays, and critical writing into publication-ready content, improving clarity, structure, and readability while preserving author voice
- Designed and implemented a streamlined submission and review workflow, reducing average turnaround time by 50%
- Maintained editorial standards through fact-checking, revision tracking, and structured feedback across multiple contributors
- Managed submissions, revision cycles, and production coordination to support timely publication of biannual issues

Selected Documentation Work

GAINWELL TECHNOLOGIES
Companion Guides

- Produced Companion Guides documenting enterprise healthcare software workflows, enabling non-technical users to complete tasks accurately and consistently.

- Decomposed complex processes into task-based documentation aligned with organizational standards and user needs.
- Updated and revised guides in response to workflow changes, stakeholder feedback, and version updates.
- Collaborated with SMEs to resolve ambiguities and confirm technical correctness across guides.

Additional Experience

Breakthrough Central Texas Austin, TX
Teaching Fellow Jun 2024 – August 2024

- Developed structured instructional materials and lesson plans, adapting content based on audience feedback and comprehension
- Broke down complex concepts into clear, sequential explanations for diverse learners
